

Port Adelaide Environment Forum

Thursday 16th June 2016

7pm – 9pm

AGENDA

Co-Housing and Sustainable Housing options

Co-housing brings together community members, who want more interaction with their neighbours, to form a co-housing community. Such communities are planned, owned and managed by the residents, providing small private homes supplemented by extensive common facilities. Charles Durrett, who introduced the concept of co-housing and is very involved in co-housing for older Americans, was in Adelaide in March. The Forum will view his speech and then Ken Long from dsquared Consulting will lead a discussion of co-housing and other sustainable housing issues.

Port Adelaide Enfield Council Town Hall

34 Nile St, Port Adelaide

Free event. All Welcome

No bookings required.
